

HERE ARE SOME RECIPES TO ADD TO YOUR *summer* FUN!

- **Sidewalk Paint (rinses off with water)**

- Mix equal parts of cornstarch and water.
- Stir until smooth.
- Divide up into individual cups or a muffin tin for however many different colors you want. Into each cup drop some food coloring and mix it in.
- Use paint brushes, or foam brushes, to make your designs/drawings!
- To wash off just pour water on the drawings or hose off.

Homemade Sidewalk Chalk

- Decide how many different colors you want to make and get that many plastic cups.
- Into each plastic cup pour 1/3 cup cool water (40-50 degrees temperature)
- Stir into each cup of water about 3-4 T of tempera paint, the colors of your choice!
- Mix 2/3 C. Plaster of Paris into each cup (consistency should be similar to runny yogurt)
- Pour these into a silicone mold and tap the mold gently on the counter to remove air bubbles
- Let set up to 24 hours. Setting them in the sun will lessen the time.
- Pop the chalk out of the molds and make sure they feel dry all over.

Puffy Paint

- Mix together until you get stiff peaks:
 - 4 ounces of foam shaving crème (the cheap stuff)
 - 4 ounces of white glue
 - Food coloring
- If you want to make a couple of different colors then separate the amount into different bowls before adding the food coloring.
- Use fingers or paintbrushes to apply to paper.

Regular Play Dough

- Boil:
 - 2 cups of water
 - 3 Tablespoons of oil
 - Food Coloring
- Mix in:
 - 2.5 cups of water
 - 1/2 cup of salt
 - 2 Tablespoons of alum or cornstarch
- Knead & store in an airtight container

Kool Dough

- Mix together until you get stiff peaks:
- Boil 2 cups of water
- Add
 - 1 Tablespoon (T) of oil
 - 1/2 cup of salt
 - 1 package of Kool Aid
 - 2.5 cups of flour
